

INVEST IN HUMANITY!

Support system change towards social entrepreneurship and financial sustainability of National Societies

REDpreneur is the first-of-its-kind global innovation and acceleration program of the Austrian Red Cross facilitating the development of capacities to initiate and grow social businesses in Red Cross core areas.

The Program empowers staff and volunteers from potentially 191 countries to ideate new business ideas and validate financially sustainable business models for their core activities and implement innovative solutions to solve old and new complex social problems. By offering a proven practical solution to drive change and develop enterprises in RCRC core areas within the Movement, REDpreneur supports NSD and the localization agenda.
